(54) Title: PREDICTIVE TEXT ENTRY AND DATA COMPRESSION METHOD FOR A MOBILE COMMUNICATION TER-
MINAL

(57) Abstract: The invention relates to mobile terminals. According to the invention, the communication terminal comprises a predictive editor application for entering text. The editor is used for editing text for message handling, phonebook editing and searching, etc. The terminal further comprises compression and/or decompression software. The invention further relates to a method of compressing data in a mobile terminal on which a language dependent dictionary is stored.
